- **Behavioral Health Science Award (BHSA)**: $1.0M
- **Impact Award (IPA)**: $1.0M
- **Translational Team Science Award (TTSA)**: $2.5M
- **Convergent Science Cancer Consortium Development Award (CSCCDA)**: $2.5M

FY22 PRCRP Deadlines

- **BHSA, CDA-FO, CDA-SO, and TTSA**
  - Letter of Intent Due: 12 July 2022
  - Full Application Due: 2 August 2022
  - Peer Review: October 2022
  - Programmatic Review: December 2022
  - Pre-Application Due: 25 May 2022

- **CSCCDA**
  - Pre-Application Due: 25 May 2022
  - Full Application Due: 7 September 2022
  - Peer Review: November 2022
  - Programmatic Review: February 2023

FY22 Topic Areas

- **Bladder cancer**
- **Blood cancer**
- **Brain cancer**
- **Colorectal cancer**
- **Endometrial cancer**
- **Esophageal cancer**
- **Germ cell cancer**
- **Head and neck cancer**
- **Liver cancer**
- **Lymphoma**
- **Mesothelioma**
- **Metastatic cancer**
- **Myeloma**
- **Neuroblastoma**
- **Pediatric, adolescent, and young adult cancers**
- **Pediatric brain tumor**
- **Sarcoma**
- **Stomach cancer**
- **Thyroid cancer**
- **Von Hippel-Lindau syndrome malignancies**

Environmental exposure risk factors associated with cancer

Environmental risk factors should be relevant to activities specific to the military such as deployments that may lead to exposures to potential carcinogens (ionizing radiation, chemicals, infectious agents, etc.).

Gaps in cancer research that may affect mission readiness

Gaps in cancer prevention, early detection/diagnosis, prognosis, and/or treatment that may impact mission readiness and the health and well-being of military members, Veterans, their beneficiaries, and the general public.

Gaps in quality of life and/or survivorship that may impact mission readiness and the health and well-being of military members, Veterans, their beneficiaries, and the general public.
